

THE GREATEST OF ALL MEDICAL
DISCOVERIES.

Composed of the Choicest Roots
and Herbs known to Medical Sci-
ence, carefully culled from
the vegetable kingdom
of the Old World.

A Speedy and Positive Cure for
**CONSTIPATION, DYSPEPSIA,
LIVER COMPLAINT, SICK HEADACHE,
NERVOUS DEBILITY, and
CONSUMPTION.**

EGYPTIAN REGULATOR TEA

Regulates the Bowels and System,
Gives Clear Complexion, Steady Nerves, and Perfect Digestion.

WORTH ITS WEIGHT IN GOLD

To Dyspeptic, Debilitated Men, to Wornout, Nervous Women, to Mothers
of Peevish and Sickly Children, to Girls just budding into Womanhood, to
Sufferers from Defective Nutrition, TO ALL CORPULENT PEOPLE,
whether Male or Female, Old or Young.

THAT CURSE OF THE **INDIGESTION**
AMERICAN PEOPLE,

from which **CONSTIPATION** and all other
physical miseries arise, is surely and speedily
overcome by the use of this Wonderful but
Harmless Remedy.

CONSTIPATION DEFINED. SOUND IDEAS AND

that food (nutrition) is required for the growth and preservation of our bodies. Every day nature re-
quires a supply of nourishment to support life. The digestive organs extract nutriment from the food we
eat; if this process goes on properly, digestion is good, indigestion rare, and **Constipation** almost
unknown. But in nine-tenths of the American people, digestion, and therefore nutrition, is imperfect.
Constipation and a whole train of evils result, rendering the victim more or less miserable, and not half
fit for the work, duties and pleasures of life. After the food has passed through the stomach, it becomes
foul, offensive and poisonous, and requires prompt excrement from the body.
With good digestion the bowels act promptly and regularly, but with **Indiges-
tion** they do not. When the bowels fail to promptly and properly carry off the
corrupt and poisonous mass, it is called **CONSTIPATION.**

Sir Edward Lancaster, M. D., of the Royal College of Surgeons of Great Britain, clearly shows,
in the English Medical Dictionary, that nearly every form of headache is caused, directly or in-
directly, by indigestion, and that sick headache is never separated therefrom. He shows that
thousands suffer from various forms of indigestion who do not know it.

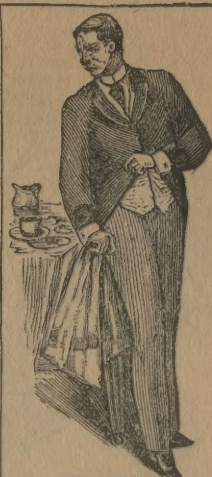

The celebrated **DR. WURTBURG**, of Berlin, defines **CONSTIPATION** as follows:

"**CONSTIPATION.**—Sluggish or incomplete action in evacuating the bowels; the inability of
the lower intestines to expel the alvine discharges; the putrid matter often remaining in the bowels
several days."—*Wurtburg.*

When this effete and poisonous matter remains in the system it poisons and
contaminates every organ with which it comes in contact. **It comes in con-
tact with the STOMACH, LIVER, HEART, and all VITAL
ORGANS. How does it do this? The blood becomes pois-
oned, and in its circulation through our entire system, it
carries the poison from this foul, effete matter to every
organ and tissue in the body.**

It is from this cause that we have "**Blood Disorders,**" which cause
Rheumatism, Neuralgia, Sick Headache, pains in all parts of the body, Running
Sores, Pimples, Boils, Carbuncles and all Skin Diseases. The blood becoming
thick and overlaid with the poisonous impurities is unable to supply the tissues
with proper nourishment, and consequently they become deranged and unhealthy;
or the blood becoming so clogged up that the impurities burst through the skin in
the shape of boils, pimples and skin diseases.

Liver Complaint, Dyspepsia, Indigestion, Sour Stomach, Loss of Appetite,
Bad Taste in the Mouth, Coated Tongue, Kidney and Bladder Diseases, are all
brought about by the deranged Digestive Apparatus being still further constantly

DYSPEPSIA.

The Dyspeptic knows no pleas-
ure or happiness. Life is merely
a burden, and yet a little thing
will relieve and cure him. Why
continue to suffer when the reme-
dy is placed within your reach?

SICK HEADACHE.

Thousands upon thousands will go through life with frequent attacks of this terrible affliction when a few doses of this Wonderful Remedy would not only relieve promptly, but give a permanent cure.

blood of all its impurities?

Only by first removing the cause and getting the system in a strong and healthy condition.

EGYPTIAN REGULATOR TEA

is an **absolute and permanent cure** for Indigestion, Constipation and all Diseases arising therefrom. It is not a purgative. It simply acts in a manner which assists nature to regulate the Liver and Bowels, and all the digestive organs, by restoring them to strong health. It is purely vegetable and contains no opiates or narcotics; but is merely a **mild yet thorough** agent in causing the organs to perform their proper functions in a healthy manner. It acts upon the entire digestive organs and nutritive system, causing thoroughly healthy action.

"The importance of having the Digestive Organs and Nutritive System in a perfectly healthy and easily working condition, as well as the Organs of Circulation and Secretion, cannot be over-estimated."—*Fowler.*

To sum it up as concisely as possible, the properties of the simple combination of roots, grasses and leaves which enter into the composition of this Tea are fourfold: 1st.—To prevent Indigestion. 2d.—To evacuate the feces and gases, which distend the large intestines and thwart peristaltic action. 3d.—To tone the walls of the bowels and thus prevent re-accumulation of feces and the products of their decomposition, to increase the flow of intestinal mucus, and thus guard against further constipation. 4th.—To thoroughly cleanse every organ and tissue in the body, and put them in a purely healthy condition.

We do not claim that this remedy will perform miracles, but do claim it can be depended upon to accomplish quicker and better results in curing and preventing disease than any medicine ever discovered. One package, lasting eight weeks, is guaranteed to cure any curable case of the disorders named, and put the system in such condition as to insure against further attacks of Constipation, and to eradicate all impurities.

CORPULENCY.

Although it is not generally so considered, obesity is a serious affliction. Not only does it cause the sufferer to become more or less of a spectacle on the street or in society, but what is far more serious, it is an affection which **predisposes** the sufferer to *Heart Troubles, Paralysis, Rheumatism, Gout, etc., and All Inflammatory Diseases.* The reason for this is that the fatty particles are not healthy. The flesh, which should be solid muscle and tissue, is flabby, and contains an immense amount of water. There is a lack of red blood corpuscles. In fact **Obesity is a disease**, and by curing yourself of this disease (Corpulency) you are much less liable, in case of an epidemic, than before, and are also insured against all inflammatory diseases.

"Speaking with scientific precision, fat ought always to be called adipose tissue. We are not to forget that when it chiefly collects in the cavity of the abdomen it frequently induces indigestion, with all its attendant evils, headache, together with a sluggish condition of the mind, with apoplexy as a final result. When it interpenetrates the bundles of muscular tissue composing the heart, you have fatty degeneration of the heart. When in the same way it invades the epithelial tissue of the liver, you have fatty degeneration of the liver. Attacking the brain, it sets up a diffused sub-acute inflammation, sclerosis and degeneration of the cells. In fine, fat or adipose tissue is essentially degenerative tissue."—*Treatise—The Philosophy Of It.*

Corpulency always **ends** in fatty degeneration. Danger attends a condition of scant breath and being too easily tired. If a few hurried steps affect the breathing of a stout person, if labor power decreases, and mind and body become steadily less alert for business or pleasure, then **Obesity is unsafe.**

NEURALGIA.

Sufferers from this complaint do not need any description of the terrible agony that most of us have had to endure when afflicted by it. We can tell you, however, that Neuralgia does not come to those whose systems are in a healthy condition, and this condition is sure to follow the use of Egyptian Tea.

CORPULENCY.

To the Corpulent and ungainly fat person, Egyptian Tea is a priceless remedy. Its action in reducing flesh is free from all the objectionable features of the old methods.

DEFECTIVE NUTRITION.

Sufferers from this distressing complaint can have a new life opened up to them by the use of this most remarkable remedy.

Not only is it *unsafe* but *highly dangerous*, to say nothing of the annoying discomforts which all fat people must experience. For this disease alone, **EGYPTIAN REGULATOR TEA** is priceless, because by its use you can reduce your weight to a normal standard without resorting to starvation diet.

DEFECTIVE NUTRITION. "What I eat does me no good." How often we hear that expression from lank, lean, tired-looking individuals. Defective Nutrition is one of the worst forms of Indigestion. No matter how much the person eats, still he or she is not nourished. The condition is one of slow starvation, and will surely shorten life if allowed to continue. This sovereign remedy acts in the most beneficent manner in such cases; the lean, lank, half-alive, cadaverous individual begins almost at once to take on flesh, muscle, strength and health. While there is life there is hope, but don't put the matter off too long.

REMARKABLE. It doubtless seems remarkable to the reader that the same remedy should avail to cure both the disease of Corpulency and of Defective Nutrition, causing the emaciated to be built up in strength, flesh and health. It is a remarkable remedy, and it does perform wonders. In the case of Corpulency, too much saccharine and starchy matter is taken up and turned into fat by the diseased digestive organs. When the organs are restored to health by this remedy, they cease to do that, acting only in a healthy manner; therefore the Corpulency gradually disappears. In the case of Defective Nutrition, the

digestive organs fail to extract much or any nutrition from the food that is eaten. When the organs are restored to health by this remedy, they readily supply full nutrition from a proper quantity of food, and the person rapidly gains in weight and vigor. When the organs of the body are right, there is health, with neither Corpulency nor emaciation.

A NATURAL REMEDY. **EGYPTIAN REGULATOR TEA** is not offered to the public as a specific cure for heart disease and gout, for cancer and ringworm, for brain fever and epilepsy, and all the other long range of great or little ills that mankind is heir to. But it is given to the people as a rational remedy for the maladies which assail life at its centre. It is presented as a means of preserving a sound body by the direct process of rendering the vital forces of the body healthy and active. When the stomach is hale, and the heart and lungs sound and strong, the body needs no drugging in any of its parts, for it is from the healthfulness of these functions that the general health proceeds. Preserve these in health, then, if they are sound; and heal them if they are not, and neither gout nor brain fever will trouble you. The remedy which does its work best is that which operates most directly to remove the causes of disease, not its casual results. Such a remedy is **Egyptian Regulator Tea**. It is a gift of nature herself to that suffering humanity for which nature is the best physician, and is only fallible when, through the neglect and foolishness of man, he fails to call upon it for aid until its powers have been rendered useless by his own fatal and criminal procrastination. And even then it makes such a battle against the consequences of his weakness and folly that it often preserves for months, and even years, the life he has rendered it impossible for any remedy to save.

READ. Until comparatively a few years ago the Formula from which **EGYPTIAN REGULATOR TEA** is prepared is said to have been a secret, carefully guarded by the Supreme Powers of Egypt, although authentic records show that this valuable remedy had been in use by the Royal Families of that famous country for more than two hundred years. All that the reader cares to know is that the formula was obtained by the late Prof. Hurr, a member of the French Academy of Sciences, Paris, France, and by him transferred to his son-in-law, a distinguished English physician, now a resident of New York, from whom it was obtained at a great cost by the present proprietors.

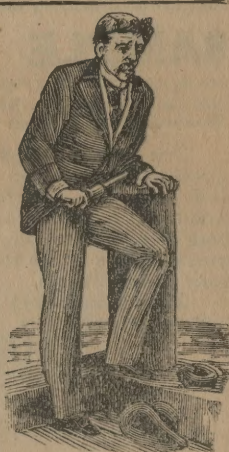

This great medicine is *Simple, Harmless*, and beyond all question, the **Best and Safest Remedial Agent** in existence. It is literally worth its weight in gold to all sufferers from the diseases above named. One package, enough for eight weeks' use, is generally sufficient to cure even very bad cases, thus making it the most economical medicine in the world, to say nothing of the saving in doctors' bills.

Just think of it, only a little over 12 cents a week for medicine, even if you had to take it every day; and then the relief every family must find in using this great remedy, from not having the house littered up with bottles and nasty, disgusting medicines, which are frequently poisonous as well and dangerous to have around. Better and more convenient than pills, because easier to take and more effective. This Tea never leaves any bad effects. It builds up by putting the entire system in a perfectly healthy condition, when nature can take care of herself.

To women, this Tea is of priceless value in giving prompt relief and speedy cure of those terrible Sick Headaches and that terrible Constipation which generally causes it. To show what a favorite this remedy has become with the ladies, we will here state that out of over ten thousand testimonial letters received last year, over eight thousand were from women.

DIRECTIONS AND SUGGESTIONS.—An ordinary dose for an adult is a teaspoonful of the herbs and a cup of water taken every night; for children, graduate the quantity according to age. Place a teaspoonful of the dry Tea, powdered fine, in a tin cup or earthen vessel, over which pour a cupful of boiling water; stir it a little and let it remain over the fire until it boils up, then remove the cover. Let it stand until cooled; strain and drink. The Tea can be made when preparing the evening meal, and can be covered until nearly bed-time. The proper time to take the Tea is just before retiring. If traveling and not-convenient to make the Tea, chew and swallow the herbs.

Should the above dose not act sufficiently on the bowels, increase the amount of herbs used.

NERVOUS DEBILITY.

There are probably more people suffering from Nervous Debility than from any other one disease. Over-work, worry, excesses, early vice, etc., are the general first causes. Egyptian Tea gives relief and cure by putting all the organs of the body in a thoroughly healthy condition. One trial will convince you of this and save you many dollars, possibly your life.

NLM

RHEUMATISM.

Who that has suffered from this common foe to mankind would not give all they possessed for a sure, safe and speedy cure. Egyptian Tea is a gift from Heaven for all sufferers from Rheumatism.

Should one teaspoonful prove too laxative, the amount can be decreased one-half or even one-fourth; but do not discontinue entirely, even one night, until at least one-half the package has been used up.

If the one teaspoonful causes profuse and numerous discharges from the bowels, it is simply the result of the poison in the system.

When beginning the use of this treatment it is desirable to have two or three evacuations each day, but if there is one full and free discharge it will suffice. As soon as the poison is out of the system the copious discharges will cease. After taking the Tea for a few days or a week, a profuse running off from the bowels, with a bad smell and bilious in its character, often accompanied with slight pain before passage, is an exceedingly favorable indication. It is simply a result of poison in the system and the derangement of the vital organs; and as soon as the blood is relieved of the poison and the liver and kidneys are stimulated to a more healthy action, the same amount of the Tea will not produce an undue evacuation; and when the derangements are entirely corrected there will be only a natural action of the bowels.

AS REGARDS DIET, vegetables should predominate over animal food. Greens (cabbage, lettuce, etc.) should be eaten as well as fruits, which should be ripe and eaten on an empty stomach. Bread made of bran, or three parts flour and one part coarse bran, or of cracked wheat, are all good. Drink hot water immediately on rising.

Avoid all pastries, fat meat, new bread, strong coffee, spirituous liquors and anything which does not agree with you. Bathe frequently, always rubbing vigorously with a coarse towel afterward.

TO SUFFERERS FROM CORPULENCY. This wonderful remedy will positively cure obesity—either inherited or acquired—by taking double or nearly double the dose as stated in the following lines:

Take the regular dose the first few days and then increase it.

At first the Tea may cause some discomfort. The evacuations may be profuse and you may experience some slight pain and nausea preceding a passage. This is a good symptom, and the bowels will regulate themselves after a few days' use.

Only hot water should be drunk at meal times, and no cold water until two or three hours afterward. Drink hot water on rising.

But two meals a day should be eaten, which may consist of beefsteak, roast beef, lamb, boiled leg of lamb or mutton, and the white meat of turkey or chicken; also game. Meat should be broiled or roasted and no gravy or stuffing eaten with it. Oysters (raw or cooked), fresh or salt codfish, clams, lobsters and turnips, cauliflower, cabbage, tomatoes (raw or cooked), asparagus, string beans and greens of all kinds; also fresh fruits in any quantity.

As little butter and sugar as possible, and no tea or coffee should be used.

Take plenty of fresh air exercise, but do not become exhausted.

CAUTION. You cannot be too cautious in using a remedy of the nature of this Tea, to know that it is pure,

harmless, and can be depended upon to perform what you expect of it without leaving any bad effects on the system. There are or may be other remedies offered you in the shape of a Tea, said to be the same or as good as **Egyptian Tea**. This is false; ours is the only Medicinal Tea which contains all the curative properties belonging to the original prescription. Be careful and avoid cheap substitutes which seek to trade on the reputation of this remedy.

All the ingredients entering into **Egyptian Tea** are imported direct from Cairo, Egypt, and then carefully examined and tested by a professional expert botanical druggist in this city, formerly connected with the firm of Peek & Velsor, the largest botanical drug house in the world. None but perfect, fresh and full-strength articles are used, thus securing the wonderful curative virtues that have made this remedy so popular. The price is as low as it can be made if a perfect medicine is to be given. Cheap drugs should be avoided, as their cheapness is merely another name for worthlessness and disappointments.

REMEMBER that **EGYPTIAN REGULATOR TEA** is guaranteed to positively and permanently cure you of *Indigestion, Constipation, Liver Complaint, Dyspepsia, Biliousness, Sick Headache, Nervous Debility, Consumption,* and many other difficulties as explained, and also those most distressing, uncomfortable and dangerous diseases, *Corpulency and Defective Nutrition.*

SAMPLE PACKAGES. A free sample package will be sent to any address, prepaid, on receipt of two two-cent stamps. If you are sick or ailing you can't afford to miss this opportunity for trying the *Best Remedy in the World*—a remedy that **really cures.**

The Price of **Egyptian Regulator Tea** is *One Dollar for Large Packages* (enough for eight weeks' use), or **\$1.12** when sent by **mail**; and *Fifty Cents for Half-size Packages*, or **56c.** when sent by **mail**. This wonderful remedy is now being sold at retail in large quantities by Agents, both male and female, with great success. We have several Agents who are averaging from two to ten dollars per day, profits on sales mostly among their acquaintances.

Make remittances by bank draft, money order or registered letter, and address all orders to

THE EGYPTIAN DRUG CO.,

(Formerly 29 Park Row.)

PREMATURE OLD AGE.

How frequently we meet men, young in years yet old and withered in appearance. This is not natural, and shows the need of a remedy that will create a healthful flow of blood through the body. Egyptian Tea is such a remedy. Try it once and you will never be without it.

BEWARE of cheap and dangerous imitations. Egyptian Regulator Tea is the only remedy of its class **MADE TO CURE**,—the *Old and Original* which never disappoints. One package of Egyptian Regulator Tea costs more to produce than any ten of the imitations. You can find out who and what we are with little trouble. It costs you nothing to try Egyptian Regulator Tea.
